To whom it may concern;

I am utterly and completely opposed to the proposed settlement in the Microsoft Anti-Trust Issue. My opposition is based upon such a large number of loop holes and non binding statements that I simply do not have the time to list them all at this juncture. If for any reason you do wish to hear a list of my problems with the settlement feel free to ask and I will respond when I have time to quote almost every sentence in the "non-settlement" to you.

Thank you for your time.
